

POLAR-PRO®

FLEXIBLE SWINGING DOORS

The Polar-Pro® from Curtron Products is a flexible PVC swinging door that provides the perfect solution for decreased energy loss in temperature sensitive areas.

Polar-Pro's spring hinge ensures that the door opens and closes on an even plane, allowing for a full-height installation that leaves no gap between the header and the door. See the hinge diagram below.

Polar-Pro® hinges swing on an even plane

FEATURES:

- USDA-grade .080" PVC panels remain flexible to 0° F
 - Optional USDA-grade low temperature PVC panels remain flexible to -20° F
 - Optional upgrade to .120" thick
- Spring hinge construction opens and closes on an even plane
- Stainless steel universal mounting hardware can be installed either in-jamb or on the face of the wall
- Polar-Pro® hardware carries a lifetime warranty against corrosion
- Each panel includes an anti-curl strip
- Optional impact plates available

BENEFITS:

- Polar-Pro® doors provide immediate energy savings
- Pays for itself in energy savings alone in as little as 6 months
- The Polar-Pro® is in full compliance with the requirements of the Energy Independence and Security Act of 2007
